OUR STORY

The Building

Joe's Farm Grill used to be the Johnston family residence. Built in 1966, Jim and Virginia Johnston hired D. D. Castleberry to design and build a ranch-style, slump block home for their young family. Sons Joe, Steve, and Paul were excited to move to "the country". In the planning of Agritopia, we always envisioned a restaurant coupled to the urban farm as a focal point for the project. This vision guided our redevelopment of the Johnston home into Joe's Farm Grill.

The Farm

Agritopia Farm contains approximately 12 acres dedicated to permanent urban organic farming. Farming began on the land in 1927 when barren desert was cleared and the availability of irrigation water made agriculture possible. Initially, alfalfa hay was the principal crop; Gilbert was known as the hay capital of the world.
